# Foundation Courses

## Foundation Maxfac | Foundation Skills

### 6<sup>th</sup> - 9<sup>th</sup> February 2024

#### **FOUNDATION MAXFAC**

The Association of Oral & Maxillofacial Surgeons of India (AOMSI) has identified a significant lacuna in maxillofacial training. Inadequate emphasis on medicine has led to poor understanding of various organ systems and associated disorders in patients. The consequences of undertaking Maxillofacial surgical procedures in these patients without optimization can translate into life threatening episodes and clinical disasters. The association has undertaken an initiative to reduce this gap with a 2 day interactive course for trainees, with lectures, video assisted problem based scenarios and group discussions.

#### **SKILLS COURSE**

B.A.S.I.C.S is a complementary course to the "Foundation Maxfac" course an initiative of the AOMSI that aims at training the Surgeons in the essential skills that might be life saving in clinical scenarios.

The objective of the course is to inculcate basic concepts of perioperative management and procedures involved in these through supervised practical experience and multiple interactive lectures.

#### **FOUNDATION MAXFAC**

**The topics covered will include :**

- ✦ Importance of clinical history
- ✦ Systemic examination and investigations
- ✦ Pre-anaesthetic evaluation
- ✦ Common perioperative case scenarios
- ✦ Pre-operative workup, documentation including informed consent
- ✦ Investigations, intra operative monitoring and related issues
- ✦ Post-operative protocols
- ✦ Medical emergencies in the ward
- ✦ Soft skills including communication
- ✦ Pre and post test to evaluate the effectiveness of the course

#### **SKILLS COURSE**

**The topics covered will include :**

- ✦ OT Etiquette - Gowning, Prepping and draping.
- ✦ Airway & Breathing - Ventilation, Intubation, Tracheostomy Care
